

# Brain Injury Network of SA Inc (BINSAs)

Every 2-3 years BINSAs reviews its Strategic and Business Plan to ensure that we are on the right track in providing support and relevant services to those impacted by acquired brain injury (ABI).

As we gear up for this we are seeking a range of views and input, including from our members.

BINSAs invites up to **15** members to a 'focus group' session to hear your views about current service and support and future options.

The format will consist of a series of facilitated questions and then each participant of the focus group will be given the opportunity to respond and then there will be a group discussion following.

We encourage anyone interested to rsvp as early as possible.
